

No. 40000

ROKAMAT

easy working

Made in Germany

Plaster Finishing Machine **ROKAMAT WET**

- ◆ **Machining plaster and lime-cement render**
- ◆ **With water injection: At high water needs to generate a filler slurry**
- ◆ **Also for sponging filler compounds – saving the grinding process!**

Advantages:

- Light weight
- Uniform structure through large headed work surface
- High speed through work (saving approximately 70 % of time)
- Continuous speed control for optimal working
- Break proof
- Tool / drive separation - improves weight distribution and reduces soiling

Technical Data

Tool r.p.m.	100 – 340
Motor input Type 1	230 V / 1000 W
Type 2	120 V / 1000 W
Weight	2,8 kg (tool)

Scope of supply:

Supporting plate (Velcro System)
Ø 350 mm, 48100, 49300, 49400, 49500
in robust machine case

Accessories

Velcro System for Ø 350 mm

Base plate

for all accessory discs Ø 350 mm
(No.: 48100 - 49900)

No.: 48000

Rubbing Plates

For smoothing mortar

- Rubbing plate with Velcro, perforated
- Rubbing plate with Velcro, smooth

No.: 48100

No.: 48200

Sponge Discs

For sponging plaster and lime-cement render

For sponging filler compounds

(Sponges on plastic backing can be worked off completely!)

- Sponge with Velcro, coarse
- Sponge with Velcro, fine
- Sponge on plastic backing with Velcro, coarse
- Sponge on plastic backing with Velcro, fine

No.: 49300

No.: 49400

No.: 48300

No.: 48400

For generating a fine surface structure

- Sponge with Velcro, superfine
- Sponge on plastic backing with Velcro, superfine

No.: 49500

No.: 48500

For fine plastering (very fine grain)

- Sponge with Velcro, blue
- Sponge with Velcro, brown

No.: 49800

No.: 49900

Felt Disc

Rubbing internal and external lime-cement render surfaces

- Felt disc with Velcro

No.: 49600

Distributor:

Light weight tool:
motor borne by belt

Water regulation

* Innovative Accessory:
sponge on plastic backing

Also for
working above head
